IMPORTANT NOTES

- 1 If the insured survives at the end of the 5th policy year, you will start to receive yearly cash payouts starting from the end of the 5th policy year till age 100 if you have paid the premiums for at least 5 years. The yearly cash payouts consist of the guaranteed yearly cash benefits and the non-guaranteed yearly cash bonuses. The guaranteed yearly cash benefit is 2% of your sum assured, while your non-guaranteed yearly cash bonus is up to 2.25% of your sum assured. The non-guaranteed yearly cash bonus may vary according to the future performance of the Life Participating Fund. You will continue to receive your yearly cash payouts at subsequent policy years if the insured is still alive and the policy has not ended.
- 2 You will receive a special cash benefit on top of each yearly cash payout at the end of the 20th and 30th policy year. Each special cash benefit is guaranteed to be 4% of the sum assured.
- 3 The insured has the option to buy another new life policy (which covers death and total and permanent disability) without reassessment of health within 3 months from the date of the defined life event if the insured has met the full conditions for the application of the new life policy. The insured can take up this option no more than two times, on two different life events. The insured must not be totally and permanently disabled, or be diagnosed with an advanced-stage dread disease at the time of taking up this option. We will limit the sum assured for the new life policy to 50% of the sum assured for the VivoCash policy, or \$100,000, whichever is lower. Please refer to the policy contract for further details on the life events and conditions required.
- 4 100% of the sum assured in addition to the death benefit or total and permanent disability benefit respectively will be paid out for this benefit only if the insured is not participating in any restricted activity. If death or total and permanent disability occurs due to the insured's involvement in any restricted activity at the time of the accident, 60% of the sum assured will be payable instead. Standard exclusions apply as well. Please refer to the policy contract for further details.
- 5 Interest rate of 3.5% per annum is not guaranteed. Prevailing interest rate at the point of deposit will be determined by Income.

IMPORTANT NOTES

- 6 The policy pays out 105% of all net premiums paid and a non-guaranteed terminal bonus in the event of insured's death or total and permanent disability (TPD before age 70) during the first 5 policy years. If the insured's death or total and permanent disability (TPD before age 70) happens after the first 5 policy years, the policy pays out 120% of all net premiums paid and a non-guaranteed terminal bonus. Net premiums means the regular premium amount as shown in the policy schedule (excluding rider premiums paid) or the reduced regular premium if a part of the policy has been cashed in earlier.
- 7 If the insured survives at the end of the policy term, which is the anniversary immediately after the insured's 100th birthday, and the policy has not already ended, the policy will pay 120% of all net premiums paid and a non-guaranteed terminal bonus ("centennial maturity benefit").
- 8 The figures in the illustration are not guaranteed and are projected based on the assumption that the Life Participating Fund earns a long-term average return of 4.75% per annum in the future. Returns are projected based on estimated bonus rates that are not guaranteed. The actual benefit payable will vary according to the future performance of the Life Participating Fund.
