

Income Global Eco Fund

Fund Summary
as of 9 September 2025

Investment Objective

To provide long-term capital growth by investing in global equity markets.

Investment Scope

The sub-fund aims to achieve the objective by investing all or substantially all of its assets in the Allianz Global Sustainability - Class AM (H2-SGD) Dis ("underlying fund"). The underlying fund aims to provide long-term capital growth by investing in global equity markets in accordance with the Environmental/Social characteristics.

The underlying fund may use financial derivative instruments for efficient portfolio management (including hedging) purpose and/or for investment purposes.

The sub-fund is denominated in Singapore Dollars.

Investment Approach

The underlying fund takes environmental, social, human rights, governance, and/or business behaviour (business behaviour does not apply for financial instruments issued by sovereign entities) factors into account as follows:

- A maximum of 30% of the underlying fund's assets may be invested in Emerging Markets.
- A maximum of 10% of the underlying fund's assets may be invested into the China A-Shares market.
- At least 90% of the underlying fund's portfolio shall be evaluated by an internal score, as described in the pre-contractual template for the underlying fund attached to the Luxembourg prospectus. The score starts at 0 (lowest) and ends at 4 (highest). The basis for the calculation of the 90% threshold is the underlying fund's net asset value except instruments that are not scored by nature, e.g., cash and deposits. The score is based on environmental, social, governance and business behaviour factors (business behaviour does not apply to sovereign issuers) and represents an internal assessment assigned to a corporate or sovereign issuer by the investment manager. A minimum of 75% of the rated securities do have an internal score of 2 or more, and a maximum of 25% of the rated securities are adhering to an internal score between 1.25 and 2.
- A minimum of 20% of the underlying fund's investment universe is considered to be non-investible (i.e., will be excluded) based on internal score.
- A minimum of 70% of the underlying fund's assets (excluding cash, and derivatives) are used to meet the environmental or social characteristics promoted by the underlying fund.

The underlying fund promotes Environmental/Social (E/S) characteristics while it does not have as its objective sustainable investment. To measure the attainment of the environmental and/or social characteristics the following sustainability indicators are used and reported on, at the end of the financial year:

- Confirmation that the investment universe has been reduced by excluding at least 20% of the total number of potential issuers compared to the investible issuers.
- Confirmation that the exclusion criteria have been adhered to throughout the underlying fund's financial year.
- Percentage of the portfolio with a proprietary sustainability score of 2 or more is compared to the percentage of the benchmark. The basis for the calculation is the underlying fund's net asset value except instruments that are not scored by nature, e.g., cash and deposits. Derivatives are generally not scored. Derivatives (other than credit default swaps), whose underlying is a single rated corporate issuer are, however, generally scored. The size of the not scored part of the portfolio varies subject to the underlying fund's general investment strategy described in the prospectus.
- Percentage of sustainable investments and taxonomy-aligned investments at the end of the financial year.

Income Global Eco Fund

Fund Summary
as of 9 September 2025

Sustainable investments contribute to environmental and/or social objectives, for which the investment manager uses as reference frameworks, among others, the UN Sustainable Development Goals (SDGs), as well as the objectives of the EU Taxonomy:

1. Climate Change Mitigation
2. Climate Change Adaptation
3. Sustainable Use and Protection of Water and Marine Resources
4. Transition to a Circular Economy
5. Pollution Prevention and Control
6. Protection and Restoration of Biodiversity and Ecosystems

The assessment of the sustainable investments' contribution to the objectives are based on a proprietary methodology. To calculate the positive contribution on the underlying fund level the revenue share of each business activity that contributes positively to an environmental or social objective is allocated to the sustainable investment share, provided the issuer passes the Do No Significant Harm ("DNSH") assessment and is satisfying the good governance principles.

- For issuers whose business activities amount to a sustainable investment share of at least 20% and who are transitioning or are already aligned with a net zero pathway, the investment manager increases the sustainable investment share by 20%. The issuers are considered transitioning to net zero if they are (1) achieving net zero, (2) aligned to net zero or (3) aligning to net zero. Issuer (4) committed to net zero or (5) not aligned to net zero are not considered to be transitioning or aligned with a net zero pathway.
- For securities, which finance specific projects contributing to environmental or social objectives, the overall investment is considered to contribute to environmental and/or social objectives, but also for these a DNSH as well as a good governance check for issuers (or in some cases at project level) is performed.
- The sustainable investment share of each issuer and each specific projects is weighted based on the percentage of the portfolio invested in such issuer or Project Bonds, respectively. The individual weighted sustainable investment shares of all issuers and specific projects are aggregated in order to compute the Sustainable Investment share of the underlying fund.

In order to ensure that sustainable investments do not significantly harm any other environmental and/or social objective, the investment manager is leveraging the PAI indicators, whereby significance thresholds have been defined to identify significantly harmful issuers. Issuers not meeting the significance threshold can be engaged to remediate the adverse impact. Weighing the PAI indicator according to the level of confidence in the quality of data available which are computed to an overall DNSH score relevant for the issuer. The overall DNSH score is determined based on the threshold for each PAI and the confidence weight. A company is considered to not pass the DNSH assessment if the overall DNSH score is one or more. If the issuer does not meet the overall DNSH score twice subsequently or in case of a failed engagement, it does not pass the DNSH assessment. Investments in securities of issuers which do not pass the DNSH assessment are not counted as sustainable investments.

Risks

Key Risks

Income Insurance's ILP sub-funds are intended for long-term investment, it is not suited for any short-term speculation. You should not expect to obtain any short-term gains from investing in Income Insurance's ILP sub-funds. It is important that your investment suit your risk appetite. You may wish to consult your financial advisor before investing in any Income Insurance's ILP sub-fund.

The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.

You should be aware that past performance is not indicative of future performance. The value of the units may rise or fall as the performance of the sub-fund changes.

The sub-fund and the underlying fund are exposed to the risks set out in this section. Given that the sub-fund invests entirely into the underlying fund, the risks associated with the underlying fund will also impact the sub-fund.

The risks described in this paragraph are not exhaustive and you should be aware that the ILP sub-fund and the underlying fund may be exposed to other risks of an exceptional nature from time to time. The risk factors may cause you to lose some or all your investments. A description of the major risks is provided below.

Market Risks

You are exposed to general market risk. The underlying fund is exposed to various general trends and tendencies in the economic and political situation as well as securities markets and investment sentiment, which may lead to substantial and longer-lasting drops in prices affecting the entire market.

Income Global Eco Fund

Fund Summary
as of 9 September 2025

You are exposed to emerging markets risk. The underlying fund invests in emerging markets which are subject to greater liquidity risk, currency risk, general market risk, settlement risk and custodial risk. The underlying fund is additionally subject to legal, taxation and regulatory risks.

You are exposed to currency risk. The underlying fund may hold assets or have a share class denominated in foreign currencies other than the base currency of the Fund and is exposed to a currency risk that if these foreign currency positions have not been hedged or if there is any change in the relevant exchange control regulations, the net asset value of the underlying fund or Class may be affected unfavourably.

Liquidity Risks

You are exposed to liquidity risk. There is no secondary market for the sub-fund. All redemption requests should be made to the manager. In exceptional circumstances, the sub-fund's investments in underlying funds may not be readily redeemable.

Product-Specific Risks

You are exposed to company specific risk. The value of the underlying fund's assets may drop significantly and for an extended period of time if company specific factors deteriorate.

You are exposed to derivatives risk. (i) the derivatives may be misvalued or may have varying valuations; (ii) the use of derivatives may not completely hedge the risk intended to be hedged; (iii) derivatives may become difficult to sell. In such cases, the underlying fund may not be able to liquidate a position at an appropriate time or price; (iv) there is also a creditworthiness risk; (v) given the leverage effect embedded in derivatives, even a small investment in derivatives could have a substantial, even negative, effect on the performance of the underlying fund.

You are exposed to sustainable strategy investment risk. The underlying fund follows a specific sustainable investment strategy which applies either minimum exclusion criteria and/or certain rating assessments, which may adversely affect the underlying fund's investment performance. The underlying fund focuses on sustainable investments and has a limited / reduced investment universe, which results in limited risk diversification compared to broadly investing funds. The securities held by the underlying fund may be subject to style drift which no longer meets the underlying fund's investment criteria, which may result in the management company disposing of such securities when it might be disadvantageous to do so.

You are exposed to China investment risk. There are numerous and varied risks associated with an investment in the Equity Markets of the People's Republic of China (PRC), such as the risks of investing in securities under the Foreign Institutional Investor (FII) regime, withholding tax imposed by the PRC tax authorities, and the risks of trading in Chinese Renminbi (RMB). As the underlying fund may invest in the Equity Markets of the PRC, it could also be exposed to risks associated with investing in China A-Shares and utilising Stock Connect programmes.

The net asset value of the underlying fund may likely have a high volatility due to the investment policies or portfolio management techniques employed in respect of the underlying fund.

For details on the specific risks of investments in the underlying fund, please refer to Risk Factors section of the underlying fund's Singapore prospectus.

Soft Dollar Commission or Arrangement

Income Insurance

The Fund Manager does not retain for its own account, cash or commission rebates arising out of transactions executed in or outside Singapore. The Fund Manager also does not receive soft dollars for the sub-fund.

Allianz Global Investors GmbH

Brokerage commissions on portfolio transactions for the Allianz Global Investors Fund may be paid by the management company and/or the investment managers, as consideration for research related services provided to them as well as for services rendered in the execution of orders. The receipt of investment research and information and related services allows the management company and/or the investment managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms.

The management company and/or the investment managers may pay, or be responsible for the payment of, soft commissions only insofar as:

- (1) the management company and/or the investment managers and/or the Sub-Investment Managers (if any) and/or their connected persons act at all times in the best interest of the Company and Shareholders when entering into soft commission arrangements,
- (2) the goods and services relate directly to the activities of the management company and/or the investment managers and/or the Sub-Investment Managers (if any) and/or their connected persons and such activities are of demonstrable benefits to the Shareholders,
- (3) transaction execution is consistent with best execution standards and brokerage rates are not in excess of customary institutional full-service brokerage rates. Investment professionals are strictly prohibited from engaging in any portfolio or market manipulative practices, including, but not limited to churning of trade. The investment manager will not enter into unnecessary trades in order to qualify for soft-dollar commissions/arrangements,

Income Global Eco Fund

Fund Summary
as of 9 September 2025

- (4) any such soft commissions are paid by the management company and/or the investment managers and/or the Sub-Investment Managers (if any) and/or their connected persons to broker-dealers which are corporate entities and not individuals, and
- (5) the availability of soft commission arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

Goods and services described above may include but are not limited to: research and advisory services, economic and political analysis, portfolio analysis, including valuation and performance measurement, market analysis, data and quotation services, computer hardware and software incidental to the above goods and services, clearing and custodian services and investment-related publications.

Such soft commissions do not include costs relating to travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are to be paid by the management company and/or the investment managers.

Periodic disclosure in the form of a statement describing such soft commissions will be made in the Company's annual report.

Conflicts of Interest

Income Insurance

As the Fund Manager of various Income Insurance ILP sub-funds and insurance funds, we may from time to time have to deal with competing or conflicting interests between these sub-funds/insurance funds. However, we will use all reasonable endeavours to act fairly and in the best interest of the sub-fund. We will conduct all transactions with or for the sub-fund on an arm's length basis. The Fund Manager has in place policies and procedures to monitor and mitigate conflicts of interests which may arise in the management of these sub-funds. We believe that these policies and procedures are reasonably designed to ensure that portfolio management decisions are made in the best interest of the sub-fund and each sub-fund is treated fairly, regardless of the existence of any conflict.

Allianz Global Investors GmbH

The Allianz Global Investors Fund, the management company, the Depositary, the Registrar and Transfer Agent and any of the investment managers, Investment Advisors, Paying and Information Agent or Distributors may each from time-to-time act in such capacity in relation to, or be otherwise involved in, other funds which have similar investment objectives to those of the sub-funds. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interests with one or more of the sub-funds.

Each party will, at all times, have regard in such event to its obligations under its respective service agreement with the Allianz Global Investors Fund and will endeavour to ensure that such conflicts of interest are resolved fairly. The management company has adopted a policy designed to ensure that in all transactions a reasonable effort is made to avoid conflicts of interest and, when they cannot be avoided, such conflicts are managed such that the sub-funds and their shareholders are fairly treated.

In addition, any of the foregoing parties may deal, as principal or agent, with any of the sub-funds, provided that such dealings are carried out as if effected on normal commercial terms negotiated on an arm's length basis and in the best interests of shareholders.

Dealings will be deemed to have been effected on normal commercial terms if: (i) a certified valuation of a transaction by a person approved by the Depositary as independent and competent is obtained; (ii) the transaction is executed on best terms on an organised investment exchange in accordance with the rules of such exchange; or (iii), where (i) and (ii) are not practical, the transaction is executed on terms which the Depositary is satisfied are normal commercial terms negotiated at arm's length.

Conflicts of interest may arise as a result of transactions in derivatives, OTC derivatives and efficient portfolio management techniques and instruments. For example, the counterparties to, or agents, intermediaries or other entities which provide services in respect of, such transactions may be related to the management company, any investment manager or Investment Advisor or the

Depository. As a result, those entities may generate profits, fees or other income or avoid losses through such transactions. Furthermore, conflicts of interests may also arise where the collateral provided by such entities is subject to a valuation or haircut applied by a related party.

The management company has adopted a policy designed to ensure that its service providers act in the sub-funds' best interests when executing decisions to deal and placing orders to deal on behalf of those sub-funds in the context of managing the sub-funds' portfolios. For these purposes, all reasonable steps must be taken to obtain the best possible result for the sub-funds, taking into account price, costs, speed, likelihood of execution, order size and nature, research services provided by the broker to the investment manager or Investment Advisor, or any other consideration relevant to the execution of the order.

Information about the management company's execution policy and any material change to the policy are available to shareholders at no charge upon request.

Other Parties

The auditor of this sub-fund is KPMG LLP. Please note that financial results ending 31 December of each year will be audited.

Material Information

Temporary suspension of the calculation of the NAV and resulting suspension of dealing of the underlying fund

Company may after consultation with the Depository, having regard to the best interests of the shareholders, temporarily suspend the calculation of the NAV per Share of each sub-fund or share class as well as any dealing in any shares upon the occurrence of any of the following:

- (1) during any period (with the exception of regular bank holidays) in which any of the principal stock exchanges or other markets on which a substantial portion of the assets of a sub-fund is listed or dealt in is closed, or during any period in which trade on such an exchange or market is restricted or suspended, provided that such closure, restriction or suspension affects the valuation of the assets of the sub-fund in question listed on such exchange or market; or
- (2) during any period in which, in the view of the Directors, there is an emergency, the result of which is that the sale or valuation of assets of a certain sub-fund or share class cannot, for all practical purposes, be carried out; or
- (3) at times when there is a breakdown in the means of communication or calculation normally used on an exchange or other market to determine the price or the value of investments of a sub-fund or share class or to determine the current price or value of investments of the respective sub-fund or share class; or
- (4) if, for any other reason, the prices for assets of the Company attributable to the sub-fund in question or a share class cannot be determined rapidly or precisely; or
- (5) during any period in which it is not possible for the Company to repatriate the necessary funds for the redemption of shares, or in which the transfer of funds from the sale or for the acquisition of investments or for payments resulting from redemptions of shares cannot be carried out, in the view of the Board, at normal exchange rates; or
- (6) from the time of the announcement of a call by investors for an extraordinary meeting of shareholders for the purpose of liquidating the Company or for the purpose of carrying out a merger of the Company, a sub-fund or a share class, or for the purpose of informing investors of the decision by the Board to liquidate sub-funds or share classes or for the purpose of merging sub-funds or share classes; or
- (7) during any period in which the valuation of the currency hedges of sub-funds or share classes whose respective investment objectives and policies make hedging of currencies at the share class or sub-fund level desirable cannot be adequately carried out or cannot be carried out at all.

Appropriate notice of any such suspension as considered necessary will be published by the Company. The Company may notify shareholders applying to deal in shares for which the calculation of NAV has been suspended. Any such suspension in a share class has no effect on the calculation of the NAV per Share or the dealing of shares of other share classes.
