KEY RISKS	
<p><b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b></p> <p>You should consider and satisfy yourself as to the risks of investing in the sub-fund.</p> <p>An investment in the sub-fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investments. The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.</p> <p>The risk factors may cause you to lose some or all your investments. A description of the major risks is provided below.</p>	<p>For further information, please refer to “Risks” of the Fund Summary for ILP.</p>
Market and Credit Risks	
<p><b>You are exposed to the following risks:</b></p> <p><b>Equity Market, Currency and Interest Rate Risks</b> The underlying fund may invest in equity securities, including stocks of smaller companies which may be subject to less liquidity, interest rate and equity market fluctuations. The value of the underlying fund is also subject to currency fluctuations.</p> <p><b>Hedging Risk</b> Any measures taken to offset specific risks could work imperfectly. Hedging may be used to mitigate currency, duration, market or credit risk. Hedging involves costs, which reduce investment performance.</p>	
Liquidity Risks	
<p><b>Liquidity Risks</b> There is no secondary market for the sub-fund. All redemption requests should be made to the Manager. In exceptional circumstances, the sub-fund's investments in underlying funds may not be readily redeemable.</p>	
Product-Specific Risks	
<p><b>China Risks</b> The underlying fund may invest in the domestic market of the People’s Republic of China (PRC) which may be subject to the risks of investing in emerging markets and additionally risks that are specific to the PRC market such as risks in investing through Stock Connect.</p> <p><b>Derivatives Risks</b> The underlying fund may, within its prescribed limits, invest in derivatives for hedging and Efficient Portfolio Management purposes.</p>	

The value of derivatives can be volatile because a small movement in the value of the underlying asset can cause a large movement in the value of the derivative, resulting in losses in excess of the amount invested by the underlying fund.

#### Emerging Markets Risks

The underlying fund may be subject to increased political, regulatory and economic instability, less developed custody and settlement practices, poor transparency, greater financial risks, higher volatility, and lower liquidity than developed markets.

### FEES AND CHARGES

#### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

For further information, please refer to "Fees and Charges" section of the Product Summary for ILP.

**VALUATIONS AND EXITING FROM THIS INVESTMENT**
**HOW OFTEN ARE VALUATIONS AVAILABLE?**

The sub-fund is valued daily on an offer/bid basis. All transactions for ILP are based on forward pricing. The prices are updated on the website of Income on each business day.

**HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?**

You can exit the sub-fund at any time by informing the insurer, either directly or through the financial adviser from whom you purchased the sub-fund.

If you do so within the cancellation period of 14 days from time of purchase, you may do so without incurring the sales charge and fees stated above. However, you will have to take the risk for any price changes in the NAV of the sub-fund since you purchased it.

You will receive the sale proceeds within 7 business days from the time the insurer receives your request to exit from the sub-fund.

Your exit price is determined as follows:

1. If you submit the redemption order before 3 pm on a business day, you will be paid a bid price based on the net asset value of the sub-fund at the close of that business day.
2. If you submit the redemption order after 3 pm, you will be paid a price bid based on the net asset value at the close of the next business day.

The sale proceeds that you will receive will be the exit price multiplied by the number of units sold, less any charges as stated in the terms of the ILP, if applicable.

An example, assuming that redemption charge is not applicable, is as follows:

Exit price	X	Number of units sold	=	Gross Sale Proceeds
S\$1.250	X	1,000	=	S\$1,250
Gross Sale Proceeds	-	Redemption Charge	=	Net Sale Proceeds
S\$1,250	-	S\$0.00	=	S\$1,250

Depending on the ILP that you are investing in, a redemption charge may be applicable. Please refer to the Product Summary of the ILP for more details.

For further information, please refer to “Subscription of Units” and “Redemption of Units” of the Product Summary for ILP.
