

Singapore Managed Fund

Fund Summary
as of 29 June 2021

Investment Objective

The objective of this sub-fund is to achieve long-term capital appreciation by investing in equities and bonds in Singapore.

Investment Scope

The sub-fund invests primarily 60% of its assets in Singapore equities and 40% in the Singapore Bond Fund. The sub-fund is denominated in Singapore Dollars.

Investment Approach

The sub-fund invests in Singapore equities through the Sub-Investment Manager, who subscribes to a growth-oriented investment style and adopts a bottom-up stock selection process which is driven by company fundamentals and proprietary research through a total return approach. The equity portion of the sub-fund managed by Fullerton Fund Management Company Ltd (Fullerton) is concentrated, constructed from best bottom-up ideas. While Fullerton is benchmark-aware, it will not invest in a company just because it is a benchmark constituent. Sector exposures are primarily driven by bottom-up stock selection, but this risk is managed by Fullerton and taken into account in its stock investment thesis.

The sub-fund also invests in the Singapore Bond Fund. The Sub-Investment Manager of the Singapore Bond Fund, Fullerton seeks to achieve the investment objective by incorporating the use of a combination of top down macro research for duration or interest rate management and sector allocation as well as bottom-up analysis for credit selection and yield curve positioning.

Risks

Key Risks

Income's ILP sub-funds are intended for long-term investment, it is not suited for any short-term speculation. You should not expect to obtain any short-term gains from investing in Income's ILP sub-funds. It is important that your investment suit your risk appetite. You may wish to consult your financial adviser before investing in any ILP sub-fund.

The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.

You should be aware that past performance is not indicative of future performance. The value of the units may rise or fall as the performance of the sub-fund changes.

Singapore Managed Fund

Fund Summary
as of 29 June 2021

The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below. This is not an exhaustive list of risks.

Market and Credit Risks

You are exposed to market risks. Prices of the securities held by the sub-fund may go up or down, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting securities markets generally or particular industries.

You are exposed to interest rate risks. The sub-fund's investment in debt securities may be subject to the risk of interest rate fluctuations which may cause the price of debt securities to go up or down. In general, as nominal interest rates rise, the value of fixed income securities is likely to fall.

You are exposed to credit risks. Changes in the financial condition or credit standing of an issuer may negatively affect the underlying fund. An issuer of fixed income securities may suffer adverse changes in its financial condition and unable to pay the principal and/or interest on the instrument.

Liquidity Risks

You are exposed to liquidity risks. There is no secondary market for the sub-fund. All redemption requests should be made to the Manager.

Product-Specific Risks

You are exposed to derivatives risks. The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund.

The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives.

Expense and Turnover Ratio

	Expense Ratio	Turnover Ratio
As of 31 December 2020	1.08%	34.04%
As of 31 December 2019	1.08%	22.89%

Expense ratio does not include (where applicable) charges for insurance coverage, brokerage and other transaction costs, performance fee, foreign exchange gains or losses, front or back end loads arising from the purchase or sale of collective investment schemes and tax deducted at source or arising out of income received.

Soft Dollar Commission or Arrangement

Income

The Manager does not retain for its own account, cash or commission rebates arising out of transactions executed in or outside Singapore. The Manager also does not receive soft dollars for the sub-fund.

Singapore Managed Fund

Fund Summary
as of 29 June 2021

Fullerton

Fullerton may and intend to receive or enter into soft-dollar commissions/arrangements in our management of the portfolio. Fullerton will comply with applicable regulatory and industry standards on soft dollars. Such soft dollar commissions include research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis for investments managed for clients.

Soft dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

Fullerton will not accept or enter into soft dollar commissions/arrangements unless such soft dollar commissions/arrangements would, in Fullerton's opinion, assist them in their management of the portfolio, providing that Fullerton ensures at all times that best execution is carried out for the transactions and that no unnecessary trades are entered into in order to qualify for such soft-dollar commissions/arrangements.

Conflicts of Interest

Income

As the Manager of various Income ILP sub-funds and insurance funds, we may from time to time have to deal with competing or conflicting interests between these sub-funds/insurance funds. However, we will use all reasonable endeavours to act fairly and in the best interest of the sub-fund. We will conduct all transactions with or for the sub-fund on an arm's length basis. The Manager has in place policies and procedures to monitor and mitigate conflicts of interests which may arise in the management of these sub-funds. We believe that these policies and procedures are reasonably designed to ensure that portfolio management decisions are made in the best interest of the sub-fund and each sub-fund is treated fairly, regardless of the existence of any conflict.

Fullerton

Fullerton is of the view that there are no conflicts of interests in managing the portfolio. Under the conditions of its license, Fullerton is required to conduct its business in a manner so as to avoid conflicts of interests, and ensure that any conflicts of interests arising are resolved fairly and equitably. In addition, as a member of the Investment Management Association of Singapore ("IMAS"), Fullerton adopts the principles and standards of investment conduct, which includes ensuring fair allocation, as set out in the IMAS Code of Ethics & Standards of Professional Conduct.

Other Parties

The auditor of this sub-fund is KPMG LLP. Please note that financial results ending 31 December of each year will be audited.

Material Information

There is no material information that will adversely impact the valuation of the sub-fund.
