		FEATURES OF THE S	UB-FUND		
WHAT ARE YOU INVESTING IN? The sub-fund is fully invested in global technology equities. The sub-fund is denominated in Singapore Dollars. The sub-fund is an accumulating fund – the Investment Manager does not intend to make any distribution pay-outs.				For further information, please refer to "Investment Objective, Investment Scope and Fund Details" of the Fund Summary for ILP.	
		Investment Strateg			
The sub-fund intends to achieve long-term capital growth by investing globally in technology or technology-related industries. The sub-fund's investment approach focuses on direct contact with company management, suppliers, and competitors. The sub-fund determines favourable investment opportunities not yet recognised by the market and security weights are based upon supply and demand characteristics, secular trends, existing product evaluations, and new product developments. Bottom-up security selection is based on proprietary, fundamental research and valuation analysis, while country allocation is typically a fallout from stock selection.				For further information, please refer to "Investment Scope and Investment Approach" of the Fund Summary for ILP.	

GLOBAL TECHNOLOGY FUND

The sub-fund is managed by Income Insurance Limited and sub-managed by Wellington Management Singapore Pte Ltd. The custodian of the sub-fund is The Bank of New York Mellon. Effective 11 October 2024, the custodian will be JPMorgan Chase Bank, National Association, Hong Kong Branch. KEY RISKS WHAT ARE THE KEY RISKS OF THIS INVESTMENT? You should consider and satisfy yourself as to the risks of investing in the sub-fund. An investment in the sub-fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investments. The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur. The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below. Market and Credit Risks You are exposed to the following risks: Market Risks The value of investments by the sub-fund may go up and down due to changing economic, political or market conditions, or due to an issuer's individual situation. Currency Risks Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of a sub-fund's investments to diminish or increase. Currency exchange rates may fluctuate significantly over short periods of time. Greater Exposure To Market Risks As This Is An Equity Fund. Historically, equities have greater volatility than bonds and other fixed income securities. The sub- fund's valuation and the price at which you can exit may correspondingly fluctuate more strongly on a day-to-day basis compared to sub-fund. All redemption requests should be made to the Manager.

Product-Specific Risks	
You are exposed to the following risks: Derivatives Risks The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund.	

(Income made yours

The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives. Risks Of Investing In A Single Sector The sub-fund is fully invested in global technology equities. A single sector sub-fund may be subjected to higher risk as it is less diversified than a global portfolio.

Your exit price is determined as follows:

- 1. If you submit the redemption order before 3 pm on a business day, you will be paid a bid price based on the net asset value of the sub-fund at the close of that business day.
- 2. If you submit the redemption order after 3 pm, you will be paid a price bid based on the net asset value at the close of the next business day.

The sale proceeds that you will receive will be the exit price multiplied by the number of units sold, less any charges as stated in the terms of the ILP, if applicable.

An example, assuming that redemption charge is not applicable, is as follows:

Exit price	Х	Number of units sold	=	Gross Sale Proceeds
S\$1.250	Х	1,000	=	S\$1,250
Gross Sale Proceeds	-	Redemption Charge	=	Net Sale Proceeds
S\$1,250	-	S\$0.00	=	S\$1,250

Depending on the ILP that you are investing in, a redemption charge may be applicable. Please refer to the Product Summary of the ILP for more details.
