Important notes

Based on March 2021 payout, distribution rate is approximately 1.93% per annum.

Distributions (if any) may be declared at our absolute discretion and are not guaranteed.

The sub-fund offers a monthly payout feature and intends to declare monthly distributions out of income and/ or capital of the sub-fund with effect from 30 May 2018. Monthly distributions may be declared in the range of 2% p.a to 4% p.a. The Manager intends to pay the distribution within 45 days from the declaration date. The declaration date is set on the 2nd last business day of every month. The default option for distribution is to reinvest them into the sub-fund. If policyholder wants to encash the distribution, he must notify the Manager in writing at least 30 days before the declaration date. Any distribution below S\$50 has to be reinvested and encashment is not allowed. Any distribution payable for investment bought using SRS monies, if applicable, will also be reinvested.

Please note that the making of distributions is not guaranteed. If distributions are made, such distributions are not a forecast, indication or projection of the future performance of the sub-fund. The making of any distribution will not imply that further distributions will be made. The frequency and/or amount of distributions (if at all) may be varied at our absolute discretion.

Distributions may be made out of the capital of the sub-fund. Please note the risk of distributions out of capital described in Product-Specific Risks section in this document.

Distributions are expected to result in an immediate reduction of the net asset value per share/unit.

Distribution Per Unit (DPU) = Fund NAV (declaration date) * Distribution Rate.
