

# Global Managed Fund (Growth)

Fund Summary  
as of 22 September 2020

## Investment Objective

The objective of this sub-fund is to provide medium to long-term capital appreciation by investing in the core sub-funds, Global Equity, Global Bond, Singapore Equity and Singapore Bond.

## Investment Scope

The Growth Fund is invested in Income's core sub-funds in the following proportions: Singapore Equity (15%), Global Equity (55%), Singapore Bond (10%), and Global Bond (20%). The sub-fund is denominated in Singapore Dollars.

## Investment Approach

### Singapore Equity Fund

The Singapore Equity Fund invests in Singapore equities actively through Fullerton Fund Management Company Ltd (Fullerton), who subscribes to a growth-oriented investment style and adopts a bottom-up stock selection process which is driven by company fundamentals and proprietary research through a total return approach. The portion of the sub-fund managed by Fullerton is concentrated, constructed from best bottom-up ideas. While Fullerton is benchmark-aware, it will not invest in a company just because it is a benchmark constituent. Sector exposures are primarily driven by bottom-up stock selection but this risk is managed by Fullerton and taken into account in its stock investment thesis.

The Singapore Equity Fund also invests in Singapore equities passively through State Street Global Advisors Singapore Limited (SSGA), who will replicate the total returns of the Straits Times Index (STI). SSGA will invest in all of the stocks comprising the Straits Times Index (STI) in the same approximate proportion as their weightings within the STI. However, various circumstances may make it impossible or impracticable to purchase each component stock in such weightings. In those circumstances, SSGA may employ, alone or in combination, other investment techniques in seeking to closely track the STI. In addition, given that stocks may be and are added to or removed from the STI from time to time, SSGA may sell stocks that are represented in the STI, or purchase stocks that are not yet represented in the STI, in anticipation of their removal from or addition to the STI.

### Singapore Bond Fund

The Singapore Bond Fund seeks to achieve the investment objective by incorporating the use of a combination of top-down macro research for duration or interest rate management and sector allocation as well as bottom-up analysis for credit selection and yield curve positioning.

### Global Equity Fund

The Global Equity Fund has a multi-manager approach to investing, focusing on selecting active managers with a disciplined process in picking stocks of companies that provide sustainable earnings growth and trade at a discount to their expected growth rate. Bottom-up fundamental research is a critical component to the manager's investment approach.

### Global Bond Fund

The Global Bond Fund will be actively managed with the investment process and philosophy which include top-down and bottom-up decision making input to identify sources of value. The forward-looking credit selection process combines top-down macro views with rigorous bottom-up research which seeks to identify industries and companies with healthy growth prospects before the market and credit agencies.

Prior to 3 August 2020, Amundi Singapore Limited was the Sub-Investment Manager of the Global Bond Fund which has invested mainly in global government and corporate bonds, mortgage backed securities and asset backed securities. The description of the investment approach for the sub-fund has been amended to better reflect the way the sub-fund will be managed by PIMCO.

## Risks

### Key Risks

Income's ILP sub-funds are intended for long-term investment, it is not suited for any short-term speculation. You should not expect to obtain any short-term gains from investing in Income's ILP sub-funds. It is important that your investment suit your risk appetite. You may wish to consult your financial adviser before investing in any ILP sub-fund.

The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.

You should be aware that past performance is not indicative of future performance. The value of the units may rise or fall as the performance of the sub-fund changes.

The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below. This is not an exhaustive list of risks.

### Market and Credit Risks

You are exposed to market risks. Prices of the securities held by the sub-fund may go up or down, sometimes rapidly or unpredictably. Securities may decline in value due to factors affecting securities markets generally or particular industries.

You are exposed to interest rate risks. The sub-fund's investment in debt securities may be subject to the risk of interest rate fluctuations which may cause the price of debt securities to go up or down. In general, as nominal interest rates rise, the value of fixed income securities is likely to fall.

You are exposed to currency risks. Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of a sub-fund's investments to diminish or increase. Currency exchange rates may fluctuate significantly over short periods of time.

You are exposed to credit risks. Changes in the financial condition or credit standing of an issuer may negatively affect the underlying fund. An issuer of fixed income securities may suffer adverse changes in its financial condition and unable to pay the principal and/or interest on the instrument.

Fund Summary  
as of 22 September 2020

## Liquidity Risks

You are exposed to liquidity risks. There is no secondary market for the sub-fund. All redemption requests should be made to the Manager.

## Product-Specific Risks

You are exposed to derivatives risks. The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund.

The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives.

You are exposed to high yield risks. The sub-fund may be subject to greater levels of interest rate, credit and liquidity risks than funds that do not invest in such securities.

You are exposed to emerging markets risks. Investment risk may be particularly high to the extent that a sub-fund invests in emerging market securities of issuers based in countries with developing economies. These securities may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed countries.

## Expense and Turnover Ratio

	Expense Ratio	Turnover Ratio
As of 31 December 2019	1.09%	5.95%
As of 31 December 2018	1.10%	8.73%

Please refer to the Fund Reports of Global Equity Fund for details on the turnover and expense ratios.

Expense ratio does not include (where applicable) charges for insurance coverage, brokerage and other transaction costs, performance fee, foreign exchange gains or losses, front or back end loads arising from the purchase or sale of collective investment schemes and tax deducted at source or arising out of income received.

## Soft Dollar Commission or Arrangement

The Manager does not retain for its own account cash or commission rebates arising out of transactions executed in or outside Singapore. The Manager also does not receive soft dollars for the sub-fund.

More Information can be found in the respective Fund Summaries of Singapore Equity Fund, Singapore Bond Fund, Global Equity Fund and Global Bond Fund.

## Conflicts of Interest

As the Manager of various Income ILP sub-funds and insurance funds, we may from time to time have to deal with competing or conflicting interests between these sub-funds/insurance funds. However, we will use all reasonable endeavours to act fairly and in the best interest of the sub-fund. We will conduct all transactions with or for the sub-fund on an arm's length basis. The Manager has in place policies and procedures to monitor and mitigate conflicts of interests which may arise in the management of these sub-funds. We believe that these policies and procedures are reasonably designed to ensure that portfolio management decisions are made in the best interest of the sub-fund and each sub-fund is treated fairly, regardless of the existence of any conflict.
