Liquidity Risks	1 7 1 1	
ou are exposed to liquidity risks.	You are exposed to liquidity risks.	
	There is no secondary market for the sub-fund. All redemption requests should be made to the	
	Manager.	
Product-Specific Risks		
	You are exposed to the following risks:	
	Derivatives Risks	
	The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or	
	credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve	
	risks different from, and, in some cases, greater than, the risks presented by more traditional securities	
nvestments. The usage of derivatives may negatively impact the value of the sub-fund.	investments. The usage of derivatives may negatively impact the value of the sub-fund	

The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives.

High Yield Risks

The sub-fund may be subject to greater levels of interest rate, credit and liquidity risks than funds that do not invest in such securities.

Emerging Markets Risks

Investment risk may be particularly high to the extent that a sub-fund invests in emerging market securities of issuers based in countries with developing economies. These securities may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed countries.

FEES AND CHARGES

WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

Initial Sales Charge/ Effective Bid-Offer Spread	Initial Sales Charge may apply. Please refer to the fees and charges in the Product Summary of the applicable ILP for details.
Policy Fee	Policy fee may apply. Please refer to the fees and charges in the Product Summary of the applicable ILP for details.
Switching Fee	There is no charge for sub-fund switching for all ILPs, other than FlexiLink. This single premium ILP is entitled to 2 free switches for each calendar year. A fee of either 1% of the transaction value or \$30, whichever is higher, is chargeable for all subsequent switches within the same calendar year. The fund switching fee is payable by cash only. Please refer to the Product Summary for details.
Surrender Charge	There is no surrender charge for all ILPs, other than VivoLink. This regular premium ILP has a surrender charge of up to 25% of the Annualised Premiums of a Premium Stream. Please refer to the Product Summary for details.

Payable by the ILP sub-fund from invested proceeds

The sub-fund will pay the following fees and charges to the Manager and other parties:

Annual	1.005% per annum at sub-fund level
Management	
Fee	Prior to 15 June 2016, the management fees were charged at core sub-fund levels.
	The Annual Management Fee is not guaranteed and may be reviewed from time
	to time. However, it shall not exceed 2.0% of the sub-fund balance at any point
	· ±
	of time.

For further information, please refer to "Fees and Charges" in section 4 of the Product Summary for ILP.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The sub-fund is valued daily on an offer/bid basis. All transactions for ILP are based on forward pricing. The prices are updated on the website of Income on each business day.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You can exit the sub-fund at any time by informing the insurer, either directly or through the financial adviser from whom you purchased the sub-fund.

If you do so within the cancellation period of 14 days from time of purchase, you may do so without incurring the sales charge and fees stated above. However, you will have to take the risk for any price changes in the NAV of the sub-fund since you purchased it.

You will receive the sale proceeds within 7 business days from the time the insurer receives your request to exit from the sub-fund.

Your exit price is determined as follows:

- 1. If you submit the redemption order before 3 pm on a business day, you will be paid a bid price based on the net asset value of the sub-fund at the close of that business day.
- 2. If you submit the redemption order after 3 pm, you will be paid a price bid based on the net asset value at the close of the next business day.

The sale proceeds that you will receive will be the exit price multiplied by the number of units sold, less any charges as stated in the terms of the ILP, if applicable.

An example, assuming that redemption charge is not applicable, is as follows:

Exit price	X	Number of units sold	=	Gross Sale Proceeds
S\$1.250	X	1,000	=	S\$1,250
Gross Sale Proceeds	-	Redemption Charge	=	Net Sale Proceeds
S\$1,250	-	S\$0.00	=	S\$1,250

Depending on the ILP that you are investing in, a redemption charge may be applicable. Please refer to the Product Summary of the ILP for more details.

CONTACT INFORMATION

HOW DO YOU CONTACT US?

	APPENDIX: GLOSSARY OF TERMS		
ILP	Investment-Linked Policy		
Efficient Portfolio	An investment technique that seeks either to reduce the risk or cost or generate additional return		
Management	consistent with risk profile of the sub-fund.		
Embedded	Embedded derivative is part of a financial instrument that also includes a non-derivative host		
Financial	contract. The embedded derivative requires that some portion of the contract's cash flows be		
Derivative	modified in relation to changes in a variable, such as an interest rate, commodity price, credit rating, or foreign exchange rate.		
Commitment	Commitment approach used in connection with the calculation of global exposure of the sub-fund		
Approach	to derivatives or embedded financial derivative refers to the sum of		
	a) the absolute value of the exposure of each individual financial derivative not involved in		
	netting or hedging arrangements;		
	b) the absolute value of the net exposure of each individual financial derivative after netting or		
	hedging arrangements; and		
	c) the sum of the values of cash collateral received pursuant to:		
	i) the reduction of exposure to counterparties of OTC financial derivatives; and		
	ii) efficient portfolio management techniques relating to securities lending and repurchase		
	transactions,		
	and that are reinvested.		
NAV	Net Asset Value		
Offer/Bid Basis	The offer price is the price that is used to purchase units, the bid price is the price that is used when		
	units are sold. The difference in the bid offer price is known as spread. The spread helps to cover		
	distribution costs, marketing and other general administration expenses.		
Business Day	Any day (other than a Saturday, Sunday or gazetted public holiday) on which commercial banks		
	are open for business in Singapore.
