

Income Singapore Dividend Equity Fund

Fund Summary
as of 15 April 2025

Investment Objective

The sub-fund seeks to achieve medium to long-term capital appreciation.

Investment Scope

The sub-fund intends to achieve the objective by investing all or substantially all of its assets into Nikko AM Shenton Horizon Investment Funds - Singapore Dividend Equity Fund - SGD Class (“underlying fund”).

The underlying fund may use financial derivative instruments (“FDIs”) for the purpose of hedging the underlying fund’s existing portfolio.

The sub-fund is denominated in Singapore Dollars.

Investment Approach

The underlying fund’s investment focus is to invest primarily in equities listed on the Singapore Exchange Securities Trading Limited that offer attractive and sustainable dividend payments. In addition, this underlying fund may also invest in equities listed outside of Singapore offering attractive and sustainable dividend payments.

This underlying fund will invest more than 55% of its assets in shares of corporations (the effect of which would be that investments by this underlying fund in other equities such as real estate investment trusts, business trusts, exchange traded funds and collective investment schemes which are in the nature of equities would be limited by having to meet the more than 55% requirement).

The manager of underlying fund manages the portfolio by selecting Singapore listed equities which offer attractive and sustainable dividend payments with the potential for long term capital appreciation. The manager of underlying fund may also invest in non-Straits Times Index (“STI”) component stocks as well as stocks listed outside of Singapore with these characteristics. All the stocks are selected on the basis of a mixture of top-down and bottom-up analysis. The manager of underlying fund’s current distribution policy is to make monthly distributions of approximately 5% to 7% per annum.

Please refer to the “Investment Objectives, Focus & Approach” section of underlying fund Singapore prospectus for further information which is available at [Fund Documents | Nikko AM Asia](#).

Fund Summary
as of 15 April 2025

Structure	Single Fund. The units in the sub-fund are not classified as Excluded Investment Products
Benchmark	The sub-fund is actively managed without reference to a benchmark
Subscription Method	Cash / SRS
Financial Year End	31 December
Distribution	Distributions (if any) may be declared at our absolute discretion and are not guaranteed.

The sub-fund offers a monthly distribution feature and intends to declare monthly distributions out of income and/ or capital of the sub-fund from June 2025. The Fund Manager intends to pay the distribution within 45 days from the declaration date. The Fund Manager has the absolute discretion to determine whether a distribution is to be declared on each calendar month and when it intends to start distributions.

Policyholders will be entitled to receive these distributions if their policy has not ended and have units in this sub-fund on the declaration date of the distribution. Please refer to the ILP products' policy contracts for the criteria and options available.

Please note that the making of distributions is not guaranteed. If distributions are made, such distributions are not a forecast, indication or projection of the future performance of the sub-fund. The making of any distribution will not imply that further distributions will be made. The frequency and/or amount of distributions (if at all) may be varied at our absolute discretion. The distribution rate of the sub-fund may differ from the underlying fund's distribution rate and the Fund Manager may consider to cease the distribution under extreme market condition.

Distributions may be made out of the capital of the sub-fund and expected to result in an immediate reduction of the net asset value per share/unit.

Past Performance (as of 31 December 2024)

As the sub-fund has been constituted for less than 12 months, hence there is no track record of at least one year for the sub-fund. Past performance of the underlying fund has been used as a proxy.

	1-month	3-month	6-month	1-year	3-year^	5-year^	10-year^	Since Inception^
Nikko AM Shenton Horizon Investment Funds - Singapore Dividend Equity Fund - SGD Class	0.73%	2.23%	11.70%	12.10%	6.58%	4.75%	4.34%	4.29%

The returns are calculated using bid-to-bid prices, in Singapore dollar terms, with dividends and distributions reinvested.

^Returns above one year and since inception date 2 August 1999 are annualised. Past performance is not indicative of future performance. Fees & charges payable through deduction of premium or cancellation of units are excluded from this calculation.

Risks

Key Risks

Income Insurance's ILP sub-funds are intended for long-term investment, it is not suited for any short-term speculation. You should not expect to obtain any short-term gains from investing in Income Insurance's ILP sub-funds. It is important that your investment suit your risk appetite. You may wish to consult your financial adviser before investing in any ILP sub-fund.

The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.

You should be aware that past performance is not indicative of future performance. The value of the units may rise or fall as the performance of the sub-fund changes.

The sub-fund is not listed on Singapore Exchange and you can redeem only on Business day through Income Insurance. There is no secondary market for the sub-fund.

The sub-fund and the underlying fund are exposed to the risks set out in this section. Given that the sub-fund invests entirely into the underlying fund, the risks associated with the underlying fund will also impact the sub-fund.

The risks described in this paragraph are not exhaustive and you should be aware that the ILP sub-fund and the underlying fund may be exposed to other risks of an exceptional nature from time to time. The risk factors may cause you to lose some or all your investments. A description of the major risks is provided below.

Income Singapore Dividend Equity Fund

Fund Summary
as of 15 April 2025**Market Risks**

You are exposed to market risk. The prices of the securities comprised in the portfolio of the underlying fund and its units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the underlying fund's portfolio and the market's perception of such securities.

Liquidity Risks

The underlying fund is not listed and you can redeem only on Business day.

Product-Specific Risks

You are exposed to equity risk. The underlying fund may invest in stocks and other equity securities, which are subject to market risks and are generally more volatile than investment-grade fixed income securities. The underlying fund may therefore be subject to greater price volatility.

You are exposed to country specific risk. The underlying fund may invest in securities of a limited number of countries and will therefore be exposed to fluctuations in the economies of these countries, and the market, currency, political, social environment and other risks related specifically to these countries, which may affect the market price of its investments in these countries. The potential volatility of the underlying fund may also increase due to the increased concentration risk.

You are exposed to risk associated with the investment strategy of the underlying fund. The manager of the underlying fund's ability to make any distribution payout largely depends on the successful execution of the investment strategy of the underlying fund.

You are exposed to income distribution risk. The manager of the underlying fund has the absolute discretion to determine whether income of the underlying fund (if any) may be distributed to holders. Where distributions are paid out of capital of the underlying fund, the NAV of the underlying fund will be reduced and this will be reflected in the realisation price of the units of the underlying fund.

You are exposed to financial derivative risk. The manager of underlying fund may in their absolute discretion, invest in FDIs for the purposes of hedging, and/or efficient portfolio management. While the prudent and judicious use of derivatives can be beneficial, derivatives involve risks different from, and in some cases, greater than, the risks presented by more traditional investments.

For details on the specific risks of investments in the underlying fund, please refer to Risks section of the underlying fund's Singapore prospectus at [Fund Documents | Nikko AM Asia](#).

Expense and Turnover Ratio

As the sub-fund has been constituted for less than 12 months, information on the expense ratio and turnover ratio are not available. The expense ratio and turnover ratio of the underlying fund are used as proxy.

Conflicts of Interest

Income Insurance

As the Fund Manager of various Income Insurance ILP sub-funds and insurance funds, we may from time to time have to deal with competing or conflicting interests between these sub-funds/insurance funds. However, we will use all reasonable endeavours to act fairly and in the best interest of the sub-fund. We will conduct all transactions with or for the sub-fund on an arm's length basis. We have in place policies and procedures to monitor and mitigate conflicts of interests which may arise in the management of these sub-funds. We believe that these policies and procedures are reasonably designed to ensure that portfolio management decisions are made in the best interest of the sub-fund and each sub-fund is treated fairly, regardless of the existence of any conflict.

Nikko Asset Management

The manager of the underlying fund are part of a financial group, and their affiliates provide the full suite of financial services to clients, and act simultaneously for a number and range of clients with various interests, requirements and positions. Nikko AM may from time to time have to deal with competing or conflicting interests arising from such other funds managed by their managers. For example, the managers may make a purchase or sale decision on behalf of some or all of the other funds managed by the managers without making the same decision on behalf of the underlying fund, as a decision whether or not to make the same investment or sale for the underlying fund depends on factors such as the cash availability and portfolio balance of the underlying fund. However, Nikko AM will use their reasonable endeavours at all times to act fairly and in the interests of the underlying fund. In particular, after taking into account the availability of cash and the relevant investment guidelines of the other funds managed by the managers and the underlying fund, Nikko AM will endeavour to ensure that securities bought and sold will be allocated proportionately as far as possible among the other funds managed by Nikko AM. Nikko AM may also transact on the underlying fund's behalf with its affiliates. Nikko AM intends to deal with any conflicts of interests in a manner consistent with any applicable guidelines which may be issued from time to time by the Investment Management Association of Singapore.

For further details, please refer to Conflict of Interest section of the underlying fund's Singapore prospectus at [Fund Documents | Nikko AM Asia](#)

Other Parties

The auditor of this sub-fund is KPMG LLP. Please note that financial results ending 31 December of each year will be audited.

Material Information

Dilution Adjustment

The underlying fund is single priced and the NAV of the underlying fund may fall as a result of, amongst others, the transaction costs (such as broker commissions, custody transaction costs, stamp duties or sales taxes) incurred in the purchase and/or sale of its Authorised Investments caused by subscriptions, realisations, switches and/or exchanges of Units in the underlying fund and the spread between the buying and selling prices of such Authorised Investments. This effect is known as "dilution".

To protect the interest of unitholders, Nikko AM shall, in consultation with the Trustee, have the discretion to apply a technique known as "dilution adjustment" or "swing pricing" in certain circumstances which Nikko AM deems appropriate. Dilution adjustment

Income Singapore Dividend Equity Fund

Fund Summary
as of 15 April 2025

involves making upwards or downwards adjustments in the calculation of the NAV per Unit of the underlying fund or class on a particular dealing day so that such transaction costs and dealing spreads in respect of the Authorised Investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging Units on that dealing day.

Typically, the NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular dealing day reaches or exceeds a certain percentage (the “Swing Threshold”) of the size of the underlying fund as of such relevant dealing day. The NAV will swing upwards for a net subscription and downwards for a net realisation. In relation to the application of Swing Pricing to Classes of Units in the underlying fund, the NAV of each Class will be calculated separately but any adjustment will, in percentage terms, affect the NAV of each Class in an equal manner.
