| Although the fund manager seeks to preserve the principal value, there is no assurance that the sub-<br>fund can fully meet its objective.  | "Risks" of the<br>Fund Summary<br>for ILP. |
| The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.  |  |
| The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below.   |  |
| Market and Credit Risks   |  |
| You are exposed to the following risks:   |  |
| Market Risks<br>Prices of the securities held by the sub-fund may go up or down, sometimes rapidly or unpredictably.<br>Securities may decline in value due to factors affecting securities markets generally or particular<br>industries.  |  |
| <b>Interest Rate Risks</b><br>The sub-fund's investment in debt securities may be subject to the risk of interest rate fluctuations which may cause the price of debt securities to go up or down. In general, as nominal interest rates rise, the value of fixed income securities is likely to fall.  |  |
| Credit Risks  |  |
| Changes in the financial condition or credit standing of an issuer may negatively affect the sub-fund.<br>An issuer of fixed income securities may suffer adverse changes in its financial condition and unable<br>to pay the principal and/or interest on the instrument.  |  |
| Liquidity Risks   |  |
| You are exposed to liquidity risks.<br>There is no secondary market for the sub-fund. All redemption requests should be made to the Manager.  |  |
| Product-Specific Risks  |  |
| You are exposed to the following risks:   |  |
| <b>Derivatives Risks</b><br>The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund. |  |
