# **GLOBAL BOND FUND**

| Parties Involved  |  |
|---|--|
| WHO ARE YOU INVESTING WITH?<br>The sub-fund is managed by Income Insurance Limited and sub-managed by PIMCO Asia Pte Ltd<br>and Invesco Asset Management Singapore Ltd.   | For further<br>information,<br>please refer to<br>"Fund Manager" |
| Prior to 17 August 2021, PIMCO Asia Pte Ltd was the only Sub-Investment Manager of the sub-fund.  | of the Fund<br>Summary for ILP.                                  |
| The custodian of the sub-fund is The Bank of New York Mellon.   |  |
| KEY RISKS   |  |
| <b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b><br>You should consider and satisfy yourself as to the risks of investing in the sub-fund.   | For further<br>information,<br>please refer to                   |
| An investment in the sub-fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investments.   | "Risks" of the<br>Fund Summary<br>for ILP.                       |
| The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.  |  |
| The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below.   |  |
| Market and Credit Risks   |  |
| You are exposed to the following risks:   |  |
| Market Risks<br>Prices of the securities held by the sub-fund may go up or down, sometimes rapidly or unpredictably.<br>Securities may decline in value due to factors affecting securities markets generally or particular<br>industries.<br>Interest Rate Risks   |  |
| The sub-fund's investment in debt securities may be subject to the risk of interest rate fluctuations which may cause the price of debt securities to go up or down. In general, as nominal interest rates rise, the value of fixed income securities is likely to fall.  |  |
| <b>Currency Risks</b><br>Changes in exchange rates between currencies or the conversion from one currency to another may<br>cause the value of a sub-fund's investments to diminish or increase. Currency exchange rates may<br>fluctuate significantly over short periods of time. The Sub-Investment Managers will actively hedge<br>the foreign currency exposure in order to manage the currency risk, but will not knowingly leverage<br>in the foreign currency exposure. |  |
| <b>Credit Risks</b><br>Changes in the financial condition or credit standing of an issuer may negatively affect the sub-fund.<br>An issuer of fixed income securities may suffer adverse changes in its financial condition and unable<br>to pay the principal and/or interest on the instrument.   |  |
| Liquidity Risks   |  |
| You are exposed to liquidity risks<br>There is no secondary market for the sub-fund. All redemption requests should be made to the<br>Manager.  |  |

**Product-Specific Risks** 

#### You are exposed to the following risks:

### **Derivatives Risks**

The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund. The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives.

# **High Yield Risks**

The sub-fund may be subject to greater levels of interest rate, credit and liquidity risks than funds that do not invest in such securities.

# **Emerging Markets Risks**

Investment risk may be particularly high to the extent that a sub-fund invests in emerging market securities of issuers based in countries with developing economies. These securities may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed countries.

#### FEES AND CHARGES

# WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

#### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

| Premium             | Premium charge may apply. Please refer to the fees and charges in the Product  |
|---------------------|--|

|                                       | APPENDIX: GLOSSARY OF TERMS   |  |  |
|---------------------------------------|---|--|--|
| ILP                                   | Investment-Linked Policy  |  |  |
| Average<br>investment<br>grade rating | The sub-fund will have an average credit rating of investment grade (credit rating of 'BBB-' or higher). This is calculated using Standard & Poor's ratings. If there is no Standard & Poor's rating, then the rating to be used is the lowest equivalent rating by Moody's or Fitch, multiplied by the weight of each security.  |  |  |
| Commitment<br>Approach                | <ul> <li>Commitment approach used in connection with the calculation of global exposure of the sub-fund to derivatives or embedded financial derivative refers to the sum of <ul> <li>a) the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;</li> <li>b) the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and</li> <li>c) the sum of the values of cash collateral received pursuant to: <ul> <li>i) the reduction of exposure to counterparties of OTC financial derivatives; and</li> <li>ii) efficient portfolio management techniques relating to securities lending and repurchase transactions,</li> </ul> </li> </ul></li></ul> |  |  |
| Efficient portfolio<br>management     | An investment technique that seeks either to reduce the risk or cost or generate additional return consistent with risk profile of the sub-fund.  |  |  |
| Embedded<br>Financial<br>Derivative   | Embedded derivative is part of a financial instrument that also includes a non-derivative host contract. The embedded derivative requires that some portion of the contract's cash flows be modified in relation to changes in a variable, such as an interest rate, commodity price, credit rating, or foreign exchange rate.  |  |  |
| NAV                                   | Net Asset Value   |  |  |
| Offer/Bid Basis                       | The offer price is the price that is used to purchase units, the bid price is the price that is used when<br>units are sold. The difference in the bid offer price is known as spread. The spread helps to cover<br>distribution costs, marketing and other general administration expenses.  |  |  |
| <b>Business Day</b>                   | Any day (other than a Saturday, Sunday or gazetted public holiday) on which commercial banks are open for business in Singapore.  |  |  |
