### KEY FEATURES OF THE SUB-FUND

<b>WHAT ARE YOU INVESTING IN?</b> You are investing in a sub-fund that seeks to provide a medium to long-term rate of return by investing mainly in global bonds. The sub-fund aims to limit volatility by hedging out most currency exposure but the Sub-Investment manager is allowed to have some currency exposure.  The sub-fund is denominated in Singapore Dollars.  The sub-fund is an accumulating fund – the Investment Manager does not intend to make any distribution pay-outs.	For further information, please refer to "Investment Objective, Investment Scope and Fund Details" of the Fund Summary for ILP.
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------

### Investment Strategy

The sub-fund will invest primarily in global investment grade corporate bonds. The sub-fund may also invest in global government bonds, mortgage backed securities and asset backed securities. The portfolio will have an average investment grade rating by Standard and Poor's.  Prior to 3 August 2020, the sub-fund invests in global government and corporate bonds, mortgage backed securities and asset backed securities.	For further information, please refer to "Investment Scope and Investment Approach" of the Fund Summary for ILP.
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------

Parties Involved	
<b>WHO ARE YOU INVESTING WITH?</b> The sub-fund is managed by NTUC Income Insurance Co-operative Limited and sub-managed by PIMCO Asia Pte Ltd.  Prior to 3 August 2020, Amundi Singapore Limited was the Sub-Investment Manager of the sub-fund.	For further information, please refer to “Fund Manager” of the Fund Summary for ILP.
KEY RISKS	
<b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b> You should consider and satisfy yourself as to the risks of investing in the sub-fund.  An investment in the sub-fund is meant to produce returns over the long-term. You should not expect to obtain short-term gains from such investments.  The securities and instruments in which the sub-fund may invest are subject to market fluctuations and other risks inherent in such investments and there can be no assurance that any appreciation in value will occur.  The risk factors may cause you to lose some or all of your investments. A description of the major risks is provided below.	For further information, please refer to “Risks” of the Fund Summary for ILP.
Market and Credit Risks	
<b>You are exposed to the following risks:</b>  <b>Market Risks</b> The value of investments by the sub-fund may go up and down due to changing economic, political or market conditions, or due to an issuer’s individual situation.  <b>Interest Rate Risks</b> The sub-fund’s investment in debt securities may be subject to the risk of interest rate fluctuations which may cause the price of debt securities to go up or down. In general, as nominal interest rates rise, the value of fixed income securities is likely to fall.  <b>Currency Risks</b> Changes in exchange rates between currencies or the conversion from one currency to another may cause the value of a sub-fund’s investments to diminish or increase. Currency exchange rates may fluctuate significantly over short periods of time.  <b>Credit Risks</b> Changes in the financial condition or credit standing of an issuer may negatively affect the sub-fund. An issuer of fixed income securities may suffer adverse changes in its financial condition and unable to pay the principal and/or interest on the instrument.	
Liquidity Risks	
<b>You are exposed to liquidity risks.</b> There is no secondary market for the sub-fund. All redemption requests should be made to the Manager.	
Product-Specific Risks	
<b>You are exposed to the following risks:</b>  <b>Derivatives Risks</b> The sub-fund may invest in derivatives instruments including futures, options, forwards, swaps or credit derivatives for purposes of hedging and/or efficient portfolio management. Derivatives involve	

risks different from, and, in some cases, greater than, the risks presented by more traditional securities investments. The usage of derivatives may negatively impact the value of the sub-fund. The global exposure of the sub-fund to financial derivatives or embedded financial derivatives will be calculated using the commitment approach and in accordance with provisions of the Code on Collective Investment Schemes. The Manager will ensure that the risk management and compliance procedures are adequate and have been or will be implemented and that it has the necessary expertise to manage the risks relating to the use of financial derivatives.

#### High Yield Risks

The sub-fund may be subject to greater levels of interest rate, credit and liquidity risks than funds that do not invest in such securities.

#### Emerging Markets Risks

Investment risk may be particularly high to the extent that a sub-fund invests in emerging market securities of issuers based in countries with developing economies. These securities may present market, credit, currency, liquidity, legal, political and other risks different from, or greater than, the risks of investing in developed countries.

### FEES AND CHARGES

#### WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?

##### Payable directly by you

You will need to pay the following fees and charges as a percentage of your gross investment sum:

Initial Sales Charge/Effective Bid-Offer Spread	Initial Sales Charge may apply. Please refer to the fees and charges in the Product Summary of the applicable ILP for details.
Policy Fee	Policy fee may apply. Please refer to the fees and charges in the Product Summary of the applicable ILP for details.
Switching Fee	There is no charge for sub-fund switching for all ILPs, other than FlexiLink. This single premium ILP is entitled to 2 free switches for each calendar year. A fee of either 1% of the transaction value or \$30, whichever is higher, is chargeable for all subsequent switches within the same calendar year. The fund switching fee is payable by cash only. Please refer to the Product Summary for details.
Surrender Charge	There is no surrender charge for all ILPs, other than VivoLink. This regular premium ILP has a surrender charge of up to 25% of the Annualised Premiums of a Premium Stream. Please refer to the Product Summary for details.

##### Payable by the ILP sub-fund from invested proceeds

The sub-fund will pay the following fees and charges to the Manager and other parties:

Annual Management Fee	0.85% per annum. The Annual Management Fee is not guaranteed and may be reviewed from time to time. However, it shall not exceed 2.0% of the sub-fund balance at any point of time.
-----------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

For further information, please refer to “Fees and Charges” in section 4 of the Product Summary for ILP.

**VALUATIONS AND EXITING FROM THIS INVESTMENT**
**HOW OFTEN ARE VALUATIONS AVAILABLE?**

The sub-fund is valued daily on an offer/bid basis. All transactions for ILP are based on forward pricing. The prices are updated on the website of Income on each business day.

**HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?**

You can exit the sub-fund at any time by informing the insurer, either directly or through the financial adviser from whom you purchased the sub-fund.

If you do so within the cancellation period of 14 days from time of purchase, you may do so without incurring the sales charge and fees stated above. However, you will have to take the risk for any price changes in the NAV of the sub-fund since you purchased it.

You will receive the sale proceeds within 7 business days from the time the insurer receives your request to exit from the sub-fund.

Your exit price is determined as follows:

1. If you submit the redemption order before 3 pm on a business day, you will be paid a bid price based on the net asset value of the sub-fund at the close of that business day.
2. If you submit the redemption order after 3 pm, you will be paid a price bid based on the net asset value at the close of the next business day.

The sale proceeds that you will receive will be the exit price multiplied by the number of units sold, less any charges as stated in the terms of the ILP, if applicable.

An example, assuming that redemption charge is not applicable, is as follows:

Exit price	X	Number of units sold	=	Gross Sale Proceeds
S\$1.250	X	1,000	=	S\$1,250
Gross Sale Proceeds	-	Redemption Charge	=	Net Sale Proceeds
S\$1,250	-	S\$0.00	=	S\$1,250

Depending on the ILP that you are investing in, a redemption charge may be applicable. Please refer to the Product Summary of the ILP for more details.

For further information, please refer to "Subscription of Units" and "Redemption of Units" in section 5 and 6 of the Product Summary for ILP.

**CONTACT INFORMATION**
**HOW DO YOU CONTACT US?**

More information on the sub-fund could be obtained from the following website:

[www.income.com.sg/fund/coopprices.asp](http://www.income.com.sg/fund/coopprices.asp)

APPENDIX: GLOSSARY OF TERMS	
<b>ILP</b>	Investment-Linked Policy
<b>Average investment grade rating</b>	The sub-fund will have an average credit rating of investment grade (credit rating of 'BBB-' or higher). This is calculated using Standard & Poor's ratings. If there is no Standard & Poor's rating, then the rating to be used is the lowest equivalent rating by Moody's or Fitch, multiplied by the weight of each security.
<b>Efficient Portfolio Management</b>	An investment technique that seeks either to reduce the risk or cost or generate additional return consistent with risk profile of the sub-fund.
<b>Embedded Financial Derivative</b>	Embedded derivative is part of a financial instrument that also includes a non-derivative host contract. The embedded derivative requires that some portion of the contract's cash flows be modified in relation to changes in a variable, such as an interest rate, commodity price, credit rating, or foreign exchange rate.
<b>Commitment Approach</b>	Commitment approach used in connection with the calculation of global exposure of the sub-fund to derivatives or embedded financial derivative refers to the sum of <ul style="list-style-type: none"> <li>a) the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;</li> <li>b) the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and</li> <li>c) the sum of the values of cash collateral received pursuant to: <ul style="list-style-type: none"> <li>i) the reduction of exposure to counterparties of OTC financial derivatives; and</li> <li>ii) efficient portfolio management techniques relating to securities lending and repurchase transactions,</li> </ul> </li> </ul> and that are reinvested.
<b>NAV</b>	Net Asset Value
<b>Offer/Bid Basis</b>	The offer price is the price that is used to purchase units, the bid price is the price that is used when units are sold. The difference in the bid offer price is known as spread. The spread helps to cover distribution costs, marketing and other general administration expenses.
<b>Business Day</b>	Any day (other than a Saturday, Sunday or gazetted public holiday) on which commercial banks are open for business in Singapore.
